LYNX AVIONICS HEADSETS

REPLACEMENT WINDSHIELD (TYPE 2S)

REF: E039-0 05-07-02

INSTALLATION INSTRUCTIONS

TYPE 2 HEADSET MICROPHONE

1. Remove the original windshield.
2. Remove the cardboard tube from the new windshield; before the foam material begins to retract, immediately position the windshield onto the boom.

NOTE:

The new Windshield must be positioned so that the flat area corresponds with the front of the microphone.
